"SILVER KING" has something that buyers know is a real advantage—something that **LIFTS IT OUT OF A CLASS** it would otherwise be in—and lucky are the dealers who see this.

No wrench at anywhere near the price, is near as good. No wrench at any price is **SO CERTAIN TO GIVE SATISFACTION** under most trying conditions.

The foregoing wrench sets have been arranged to meet the requirements of general use in certain lines but **SPECIAL COMBINATION SETS** can be furnished when desired. Separate parts also can be obtained.

These sets weigh only a few pounds each, hence single sets can be **SHIPPED BY PARCEL POST**.

SOLD BY ALL hardware and automobile accessories stores, or write us if more convenient.
